TO: THE SENATE OF PENNSYLVANIA PETITION AGAINST HOUSE BILL 1954

We the constituents of Pennsylvania are against House Bill 1954 passing through the Senate of Pennsylvania. If this bill were to pass in its current form, Pennsylvania residents would risk losing their homeowners insurance on their second claim. The end result would be the misleading classification of homeowners as "high-risk" and exorbitant insurance premiums. This bill is in total opposition to the hardworking citizens of Pennsylvania. It is for this reason that I ask you to close the door on House Bill 1954.
